

POLICY STATEMENT

To ensure the success and growth of the Scottish Police Services Authority, it is vital that we have the ability to attract and recruit individuals with the necessary skills, behaviours, qualifications and experience who can contribute effectively towards achievement of the organisation's goals and values.

The Scottish Police Services Authority welcomes applications from all sections of the community and applicants will be considered solely on their ability and potential to carry out the role.

We will implement a consistent, effective and fair recruitment and selection process for all involved, to enable the best individuals to be selected for roles within the organisation.

Samantha Folcarelli
Head of Human Resources
